

# **Technical Meeting on the Production and Quality Control of Short-Lived Radiopharmaceuticals for Positron Emission Tomography**

**Hosted by the  
Government of Romania**

**through the**  
Horia Hulubei National Institute for Research and Development in Physics and  
Nuclear Engineering

**Măgurele, Romania**

**10–14 December 2018**

**Ref. No.: F2-TM-1704079**

## **Information Sheet**

### **A. Working Language(s)**

English

### **B. Application Procedure**

Designations should be submitted through InTouch+ (<https://Intouchplus.iaea.org>) or using the attached **Participation Form (Form A)**. Completed requests should be endorsed by the competent national authority (e.g. Ministry of Foreign Affairs, Permanent Mission to the IAEA, or National Atomic Energy Authority), or by an organization invited to participate, and returned through the established official

channels. They must be received by the IAEA not later than **25 October 2018**. Designations received after that date or applications sent directly by individuals or by private institutions cannot be considered. Designating Governments and invited organizations will be informed in due course of the names of the selected candidates and at that time full details will be given on the procedures to be followed with regard to administrative and financial matters.

## **C. Expenditures and Grants**

No registration fee is charged to participants. The IAEA is generally not in a position to bear the travel and other costs of participants in the technical meeting. The IAEA has, however, limited funds at its disposal to help meet the cost of attendance of certain participants. Upon specific request, such assistance may be offered to normally **one or more participants** per country, provided that, in the IAEA's view, the participant(s) will make an important contribution to the technical meeting. The application for financial support should be made at the time of designating the participant(s). If Governments wish to apply for a grant on behalf of one of their experts, they should address specific requests to the IAEA to this effect. Governments should ensure that applications for grants are submitted by **25 October 2018** through InTouch+ (<https://Intouchplus.iaea.org>) or using a signed **Grant Application Form (Form C)**. Approved grants will be issued in the form of a lump sum payment that usually covers **only part of the cost of attendance**.
